PROFESSIONAL SUMMARY

Dynamic web developer with over 5 years of experience in creating responsive and user-friendly websites and apps. Proficient in HTML, CSS, JavaScript, PHP MYSQL, Ajax, Restful APIs, and various frameworks like Bootstrap, Tailwind and Material bootstrap design, I excel at translating client requirements into innovative digital solutions. Strong problem-solving skills and a keen eye for design ensure high-quality outcomes, while my ability to collaborate effectively with cross-functional teams enhances project efficiency. Passionate about staying updated with the latest industry trends to deliver cutting-edge web applications.

WORK HISTORY

Web Developer   October 2022 - Present

Permanent │ Geocare Services limited │ Wolverhampton

- Design and Development: Creating visually appealing and user-friendly websites or applications using HTML, CSS, JavaScript, Ajax, Restful APIs, and frameworks like Bootstrap, Tailwind and Material bootstrap design.
- Backend Development: Building server-side logic, databases, and APIs using languages like PHP MySQL, or Node.js.
- Testing and Debugging: Ensuring the website functions correctly across different browsers and devices, identifying and fixing bugs.
- Performance Optimization: Improving site speed and efficiency, optimizing images, and managing resources effectively.
- Version Control: Using tools like Git to manage code changes and collaborate with other developers.
- Responsive Design: Ensuring websites are mobile-friendly and accessible on various devices and screen sizes.
- Collaboration: Working with designers, UX/UI professionals, and other stakeholders to ensure alignment on project goals and user experience.
- Maintenance and Updates: Regularly updating the website, fixing security issues, and implementing new features as needed.
